Comments

Please list things which could be improved.

- articles sometimes difficult to understand
- Doing an empirical paper for the first time is really complicated and takes a lot of time. On the one hand it is good to get into it, on the other hand this course only gives you 3 LP which doesn't mirror the effort.
- take more time for the realization of the empirical study
- the instructor should make clear at the beginning of the semester that the students are supposed to do such a project at the end of the semester (also not the best time due to other exams)
- Why an empirical paper if it is more suitable to master students?
