Comments

Please list things which could be improved.

- feedback on the homework would be helpful and is necessary, lacking feedback to homework ("too much work" for him) (3)
- a more active seminar → more motivation to make students active→ sometimes boring (2)
- blackboard structure
- I don't like the idea of writing a term paper. I have never refered to it before so it is a big challenge for me. I hope the lectures won't be that strict while evaluating one paper.
- lack of teaching skills/methods, teacher does not seem very competent
- more examples that make the topics more understandable

Please list things you liked in this course.

- teacher inquires about students problems and questions via homework, tries to involve students homework (3)
- discussions (2)
- appropriate knowledge of the subject
- concepts and terms are discussed until everyone has understood everything
- course-structure is known to everyone
- I like doing homework and reading. Analyzing various texts individually helps me improving my skills in many ways.
- I like how the teacher helps us to understand the topic.
- possibility to exchange opinions
